### Profile

---

UI/UX Designer with experience in user research, wireframing, prototyping, and high fidelity UI design across web and mobile platforms. Skilled in Figma, usability testing with a track record of contributing to cross functional teams on multi module product builds. Frontend proficiency in enables close collaboration with development teams to translate

### Professional Experience

---

**UI / UX Intern, Gamage Recruiters**  08/2025 – 02/2026 | Panadura

- Contributed wireframes, high fidelity mockups, and interactive prototypes across multiple client engagements for user-centered digital experiences.
- Applied responsive design and accessibility principles consistently across projects to improve navigation, readability, and task completion.
- Maintained visual and interaction consistency across shared design systems and component libraries through close design collaboration.

**Attendo – smart attendance marking web application**

- Designed the Attendance Management interface, enabling administrators to filter and audit attendance records by employee, date, and status through a complete UX process, from competitor research to interactive prototyping in Figma.

**Veritas International Campus – learning management system**

- Structured the Certification & Badges page, organizing earned certifications, downloadable badges, and achievement records into a clear hierarchy that reinforced learner motivation.

**Veritas International (Duty Free) – e-commerce website**

- Shaped the Promotions & Offers section, including a banner slider and dedicated displays for Duty Free Deals and Limited Stock items to support merchandising goals.

### Education

---

**Higher National Diploma in Software Engineering**

03/2024 – 07/2025 | Kurunegala

National Institute of Business Management (NIBM)

### Technical Skills

---

- **UI/UX Skills:** User Research, Wireframing, Prototyping, High Fidelity UI Design, Usability Testing, User Flows, Information Architecture, Design Systems, Accessibility (WCAG), Responsive Design
- **Tools:** Figma, Framer, Photoshop, Canva
- **Frontend:** HTML, CSS, JavaScript, React.js, Next.js, Tailwind CSS

## Projects

---

### **BLYSS - Individual Project**

05/2026 – 07/2026

- A fashion e-commerce platform spanning both a customer facing shop and a full admin side built to practice designing two connected user types in one system.
- Created user flows, wireframes, high fidelity UI designs, and interactive prototypes in Figma, refining the checkout flow through usability testing.

### **NexHome - Individual Project**

03/2026 – 04/2026

- A smart home dashboard built for a real client, where the challenge was making device control, security monitoring, and energy tracking feel simple in one screen.
- Developed responsive wireframes, high fidelity UI designs, and interactive prototypes in Figma, focusing on accessibility and intuitive navigation.

### **Grabber - Individual Project**

02/2026 – 03/2026

- A food ordering app supporting customers, vendors, and admins in one product designed to keep each role's experience simple despite the shared complexity underneath.
- Mapped end to end user journeys and built wireframes, high fidelity mobile interfaces, and interactive prototypes in Figma for a fast, intuitive ordering experience.

### **MindUp - Group Project**

03/2025 – 07/2025

- A learning platform that pairs course publishing with ML based stress prediction and an interactive stress relief activity a rare mix of education and mental wellbeing in one product.
- Built the course publishing interfaces, stress relief activity screens, and a clear visualization of the ML prediction results in Figma.

### **Prescripto - Individual Project**

11/2024 – 02/2025

- A healthcare booking platform built around a real pain point cutting the friction patients face when finding a doctor and scheduling care.
- Built the UI in Figma and coded responsive frontend components in React.js, HTML, CSS, and JavaScript for a smooth booking flow.

## Certifications

---

- **Conduct UX Research and Test Early Concepts** - Google via Coursera (04/2025)
- **Create High-Fidelity Designs and Prototypes in Figma** - Google via Coursera (04/2025)
- **Essentials User Experience Design Adobe XD UI UX Design** - Udemy (07/2025)
- **Web Design for Beginners** - University of Moratuwa (01/2025)
- **Oracle Cloud Infrastructure 2025 Certified Foundations Associate** - Oracle (10/ 2025)

## Extracurricular Activities

---

### **Active Member of NIBM IEEE branch**

03/2025 – Present

### **Active Member of NIBM computing society**

08/2024 – Present
